CONTENTS
VOLUME 56, 2001

CONTENTS VOLUME 56 NUMBER 1 SEPTEMBER 1, 2001

Articles

Localization of $GABA_B$ receptors in midbrain monoamine containing neurons in the rat.
Wirtshafter, D., and A. C. Sheppard 1

The electroretinogram and visual evoked potential of freely moving rats.
Szabó-Salfay, O., J. Pálhalmi, E. Szatmári, P. Barabás, N. Szilágyi, and G. Juhász 7

Histochemical and immunocytochemical investigations of the marginal nuclei in the spinal cord of pigeons (*Columba livia*).
Milinski, T., and R. Necker 15

Renin antisense injected intraventricularly decreases blood pressure in spontaneously hypertensive rats.
Kubo, T., A. Ikezawa, T. Kambe, Y. Hagiwara, and R. Fukumori 23

Sustained, long-lasting inhibition of nitric oxide synthase aggravates the neural damage in some models of excitotoxic brain injury.
Ciani, E., I. Baldinotti, and A. Contestabile 29

TGF-α induces a stationary, radial-glia like phenotype in cultured astrocytes.
Zhou, R., X. Wu, and O. Skalli 37

Progesterone receptor isoforms expression pattern in human astrocytomas.
González-Agüero, G., R. Ondarza, A. Gamboa-Domínguez, M. A. Cerbón, and I. Camacho-Arroyo 43

Basolateral amygdala lesions disrupt latent inhibition in rats.
Coutureau, E., P. J. Blundell, and S. Killcross 49

Stereoselective effect of (*R*)- and (*S*)-1-methyl-1,2,3,4-tetrahydroisoquinolines on a mouse model of Parkinson's disease.
Abe, K., K. Taguchi, T. Wasai, J. Ren, I. Utsunomiya, T. Shinohara, T. Miyatake, and T. Sano 55

Prostaglandins may participate in opioidergic and cholinergic control of the diurnal changes of tuberoinfundibular dopaminergic neuronal activity and serum prolactin level in ovariectomized, estrogen-treated rats.
Chu, Y.-C., M.-Y. Tsou, and J.-T. Pan 61

Role of pH on the calcium ion dependence of the nitric oxide synthase in the carp brain.
Conte, A. 67

The development of sex differences in the locus coeruleus of the rat.
Pinos, H., P. Collado, M. Rodríguez-Zafra, C. Rodríguez, S. Segovia, and A. Guillamón 73

CONTENTS VOLUME 56 NUMBER 2 SEPTEMBER 15, 2001

Articles

The relationship between age and the fatty acid composition of cerebral cortex and erythrocytes in human subjects.
Carver, J. D., V. J. Benford, B. Han, and A. B. Cantor 79

Effects of angiotensin III and angiotensin IV on pentylenetetrazol seizure susceptibility (threshold and kindling): Interaction with adenosine A_1 receptors.
Tchekalarova, J., T. Kambourova, and V. Georgiev 87

Vertical meridian representation on the prelunate gyrus in area V4 of macaque.
Youakim, M., D. B. Bender, and J. S. Baizer 93

A neural network approach to the acoustic startle reflex and prepulse inhibition.
Leumann, L., D. Sterchi, F. Vollenweider, K. Ludewig, and H. Früh 101

Abnormalities in the synaptic vesicle fusion machinery in Huntington's disease.
Morton, A. J., R. L. M. Faull, and J. M. Edwardson 111

Mechanisms of MPP^+ incorporation into cerebellar granule cells.
González-Polo, R. A., A. Mora, N. Clemente, G. Sabio, F. Centeno, G. Soler, and J. M. Fuentes 119

Dopamine release in the prefrontal cortex during stress is reduced by the local activation of glutamate receptors.
Del Arco, A., and F. Mora 125

Distribution of the phosphorylated form of microtubule associated protein 1B in the fish visual system during optic nerve regeneration.
Vecino, E., and J. Avila 131

Expression of Kin17 and 8-OxoG DNA glycosylase in cells of rodent and quail central nervous system.
Araneda, S., N. Mermet, T. Verjat, J. F. Angulo, and J. P. Radicella 139

***In vitro* induction and *in vivo* expression of bcl-2 in the hNT neurons.**
Daadi, M. M., S. Saporta, A. E. Willing, T. Zigova, M. P. McGrogan, and P. R. Sanberg 147

Importance of magnesium ions in development of tolerance to ethanol: Studies on cultured cerebral vascular smooth muscle cells, type-2 astrocytes and intact rat brain.
Li, W., T. Zheng, A. N. Babu, B. T. Altura, R. K. Gupta, and B. M. Altura 153

CONTENTS VOLUME 56 NUMBERS 3/4 OCTOBER/NOVEMBER 1, 2001

Special Issue: Triplet Repeat Diseases

Foreword

Triplet repeat diseases: From basic to clinical aspects.
Poletti, A., A. Servadio, and F. Taroni 159

Section 1: Polyglutamine Diseases

Review Articles

Polyglutamine expansion neurodegenerative disease.
Fischbeck, K. H. 161

Protective effect of chaperones on polyglutamine diseases.
Kobayashi, Y., and G. Sobue 165

Transglutaminase-dependent formation of protein aggregates as possible biochemical mechanism for polyglutamine diseases.
Violante, V., A. Luongo, I. Pepe, S. Annunziata, and V. Gentile 169

Tissue-transglutaminase in rat and human brain: Light and electron immunocytochemical analysis and *in situ* hybridization study.
Maggio, N., S. Sellitti, C. Perrone Capano, and M. Papa 173

A structural approach to trinucleotide expansion diseases.
Masino, L., and A. Pastore 183

Triplet repeats, RNA secondary structure and toxic gain-of-function models for pathogenesis.
Galvão, R., L. Mendes-Soares, J. Câmara, I. Jaco, and M. Carmo-Fonseca 191

Molecular pathogenesis of spinal and bulbar muscular atrophy.
Merry, D. E. 203

Kennedy's disease: A triplet repeat disorder or a motor neuron disease?
Gallo, J.-M. 209

Polyglutamine tract expansion of the androgen receptor in a motoneuronal model of spinal and bulbar muscular atrophy.
Piccioni, F., S. Simeoni, I. Andriola, E. Armatura, S. Bassanini, P. Pozzi, and A. Poletti 215

Calcium homeostasis and spinocerebellar ataxia-1 (SCA-1).
Vig, P. J. S., S. H. Subramony, and D. O. McDaniel 221

Spinocerebellar ataxia type 6: Channelopathy or glutamine repeat disorder?
Frontali, M. 227

Onset and pre-onset studies to define the Huntington's disease natural history.
Squitieri, F., M. Cannella, P. Giallonardo, V. Maglione, C. Mariotti, and M. R. Hayden 233

Familial hemiplegic migraine: A ion channel disorder.
Carrera, P., S. Stenirri, M. Ferrari, and S. Battistini 239

Trinucleotide repeat expansions: Do they contribute to bipolar disorder?
Goossens, D., J. Del-Favero, and C. Van Broeckhoven 243

Are there CAG repeat expansion-related disorders outside the central nervous system?
Ferro, P., R. dell'Eva, and U. Pfeffer 259

Triplet repeats, over-expanded in neuromuscular diseases, are under-represented in mammalian DNA: A survey of models.
Astolfi, P., D. Bellizzi, M. A. Losso, and V. Sgaramella 265

PQBP-1 (Np/PQ): A polyglutamine tract-binding and nuclear inclusion-forming protein.
Okazawa, H., M. Sudol, and T. Rich 273

The channel hypothesis of Huntington's disease.
Kagan, B. L., Y. Hirakura, R. Azimov, and R. Azimova 281

Articles

Cytochrome *c* oxidase subunit Vb interacts with human androgen receptor: A potential mechanism for neurotoxicity in spinobulbar muscular atrophy.
Beauchemin, A. M. J., B. Gottlieb, L. K. Beitel, Y. A. Elhaji, L. Pinsky, and M. A. Trifiro 285

A survey of trinucleotide/tandem repeat-containing transcripts (TNRTs) isolated from human spinal cord to identify genes containing unstable DNA regions as candidates for disorders of motor function.
Malaspina, A., N. Kaushik, and J. de Belleroche 299

Expression of the Huntington's disease transgene in neural stem cell cultures from R6/2 transgenic mice.
Chu-LaGraff, Q., X. Kang, and A. Messer 307

Anterior cingulate cortical transplantation in transgenic Huntington's disease mice.
van Dellen, A., R. Deacon, D. York, C. Blakemore, and A. J. Hannan 313

New anti-huntingtin monoclonal antibodies: Implications for huntingtin conformation and its binding proteins.
Ko, J., S. Ou, and P. H. Patterson 319

Brain-derived neurotrophic factor inhibits apoptosis and dopamine-induced free radical production in striatal neurons but does not prevent cell death.
Petersén, Å., K. E. Larsen, G. G. Behr, N. Romero, S. Przedborski, P. Brundin, and D. Sulzer 331

Phenotypic effects of expanded ataxin-1 polyglutamines with interruptions *in vitro*.
Calabresi, V., S. Guida, A. Servadio, and C. Jodice 337

Localization of ataxin-2 within the cerebellar cortex of the rat.
Fusco, F. R., M. T. Viscomi, G. Bernardi, and M. Molinari 343

Differential susceptibility of cultured cell lines to aggregate formation and cell death produced by the truncated Machado-Joseph disease gene product with an expanded polyglutamine stretch.
Yoshizawa, T., H. Yoshida, and S. Shoji 349

Analysis of heat shock transcription factor for suppression of polyglutamine toxicity.
Rimoldi, M., A. Servadio, and V. Zimarino 353

Clinical and genetic analysis of hereditary and sporadic ataxia in central Italy.
Cellini, E., P. Forleo, B. Nacmias, A. Tedde, S. Latorraca, S. Piacentini, L. Parnetti, V. Gallai, and S. Sorbi 363

Section 2: Untranslated Repeats

Review Articles

Fragile X syndrome and Friedreich's ataxia: Two different paradigms for repeat induced transcript insufficiency.
Grabczyk, E., D. Kumari, and K. Usdin 367

The Fragile X mental retardation protein.
Bardoni, B., A. Schenck, and J.-L. Mandel 375

Pharmacological reactivation of inactive genes: The fragile X experience.
Chiurazzi, P., and G. Neri 383

Myotonic dystrophy—A multigene disorder.
Larkin, K., and M. Fardaei 389

SCA12: An unusual mutation leads to an unusual spinocerebellar ataxia.
Holmes, S. E., E. O'Hearn, C. A. Ross, and R. L. Margolis 397

Article

Coenzyme Q10, exercise lactate and CTG trinucleotide expansion in myotonic dystrophy.
Siciliano, G., M. Mancuso, D. Tedeschi, M. L. Manca, M. R. Renna, V. Lombardi, A. Rocchi, F. Martelli, and L. Murri 405

CONTENTS VOLUME 56 NUMBER 5 NOVEMBER 15, 2001

Special Issue: Serotonin: From the Molecule to the Clinic

Foreword

Whitaker-Azmitia, P. M., and A. R. Green 411

Articles

Modern views on an ancient chemical: Serotonin effects on cell proliferation, maturation, and apoptosis.
Azmitia, E. C. 413

Central cardiovascular regulation and 5-hydroxytryptamine receptors.
Ramage, A. G. 425

Paradoxical trafficking and regulation of 5-HT_{2A} receptors by agonists and antagonists.
Gray, J. A., and B. L. Roth 441

Biochemical, behavioral, physiologic, and neurodevelopmental changes in mice deficient in monoamine oxidase A or B.
Holschneider, D. P., K. Chen, I. Seif, and J. C. Shih 453

Ligands for the investigation of 5-HT autoreceptor function.
Roberts, C., G. W. Price, and D. N. Middlemiss 463

Regulation of 5-HT_{1A} and 5-HT_{1B} receptor systems by phospholipid signaling cascades.
Berg, K. A., and W. P. Clarke 471

Serotonin and brain development: Role in human developmental diseases.
Whitaker-Azmitia, P. M. 479

Genetic perspectives on the serotonin transporter.
Murphy, D. L., Q. Li, S. Engel, C. Wichems, A. Andrews, K.-P. Lesch, and G. Uhl 487

A systems model of altered consciousness: Integrating natural and drug-induced psychoses.
Vollenweider, F. X., and M. A. Geyer 495

Letter to the Editor

Neural transplantation therapy for Parkinson's disease: Potential and pitfalls.
Nikkhah, G. 509

Articles

Frequency coding of positional information by an identified neuron, the AP cell, in the leech, *Whitmania pigra*.
Shan, D., and R.-J. Zhang 511

Tetra-butyl ammonium attenuates evoked release of acetylcholine from mouse hemidiaphragm preparation.
Miyakawa, H., H. Iwasaka, T. Zelles, and T. Noguchi 517

Halothane decreases impulse-dependent but not cytoplasmic release of dopamine from rat striatal slices.
Adachi, Y. U., K. Watanabe, H. Higuchi, T. Satoh, and G. Zsilla 521

hNT neurons delay onset of motor deficits in a model of amyotrophic lateral sclerosis.
Willing, A. E., S. Garbuzova-Davis, S. Saporta, M. Milliken, D. W. Cahill, and P. R. Sanberg 525

2-Buten-4-olide, an endogenous feeding suppressant, improves spatial performance through brain acidic fibroblast growth factor in mice.
Li, X.-L., S. Aou, A.-J. Li, T. Hori, I. Tooyama, and Y. Oomura 531

The effect of naloxone on operant behavior for food reinforcers in DBA/2 mice.
Hayward, M. D., and M. J. Low 537

Central discriminative effects of morphine in rats: Training via intracerebroventricular administration.
Easterling, K. W., and S. G. Holtzman 545

Gender differences in spontaneous and MK-801-induced activity after striatal lesions.
Giordano, M., and M. C. Mejía-Viggiano 553

Endomorphin1-like immunoreactivity in the limbic system of Syrian hamsters (*Mesocricetus auratus*).
Whitten, R. D., S. Martin-Schild, J. E. Zadina, and H. E. Albers 563

Angiotensin receptor blockade in the anterior hypothalamic area inhibits stress-induced pressor responses in rats.
Kubo, T., H. Numakura, S. Endo, Y. Hagiwara, and R. Fukumori 569

The effects of Zn^{2+} on long-term potentiation of C fiber-evoked potentials in the rat spinal dorsal horn.
Ma, J.-Y., and Z.-Q. Zhao 575

Endogenous brain cytokine mRNA and inflammatory responses to lipopolysaccharide are elevated in the Tg2576 transgenic mouse model of Alzheimer=s disease.
Sly, L. M., R. F. Krzesicki, J. R. Brashler, A. E. Buhl, D. D. McKinley, D. B. Carter, and J. E. Chin 581

Effect of adrenalectomy and dexamethasone treatment on prolactin secretion of lactating rats.
Horváth, K. M., Z. Bánky, B. E. Tóth, B. Halász, and G. M. Nagy 589

Dietary restriction of choline reduces hippocampal acetylcholine release in rats: *In vivo* microdialysis study.
Nakamura, A., Y. Suzuki, H. Umegaki, H. Ikari, T. Tajima, H. Endo, and A. Iguchi 593

The effects of excitotoxic lesions of the pedunculopontine tegmental nucleus on conditioned place preference to 4%, 12% and 20% sucrose solutions.
Alderson, H. L., T. A. Jenkins, R. Kozak, M. P. Latimer, and P. Winn 599
